WELCOME TO **DPR**

DPR is a specialist contractor delivering integrated solutions across drilling, piling, dewatering, mining support, engineering, civil and concrete works, mechanical services and plant hire.

We serve the mining, renewable energy, and infrastructure sectors, combining experienced personnel, modern equipment, and technical expertise to meet the demands of complex projects.

Our capabilities extend from site investigation and foundation drilling to solar infrastructure installation, dewatering, and civil works, enabling us to provide practical, reliable solutions from project commencement through to completion.

With over 40 years of combined industry experience, DPR Group has built a reputation across South Africa for precision, reliability, and a consistent commitment to safety, quality, and operational excellence.

OUR MISSION

At DPR, our mission is to provide dependable drilling, blasting, construction, and related services that enable our clients to operate safely, efficiently, and productively.

We combine skilled people, proven expertise, modern equipment, and responsible practices to deliver practical solutions that meet the demands of every project.

OUR VISION

Our vision is to establish DPR Group as a leading South African contractor and a recognised force in the mining, renewable energy and infrastructure sectors.

We aspire to build a sustainable business that grows through innovation, strong partnerships, investment in our people and technology and a lasting commitment to the communities and environments in which we operate.

OUR VALUES

SAFETY FIRST

We protect people and the environment.

QUALITY DRIVEN

We deliver excellence in everything we do.

INTEGRITY ALWAYS

We do the right thing, every time.

INNOVATION LED

We embrace new ideas and better ways.

RESPECT FOR ALL

We value people, relationships and diversity.

ENVIRONMENT CONSCIOUS

We care for our planet and future.

At DPR, we believe that our people are the foundation of our success.

Our workforce composition reflects our commitment to transformation and inclusivity, with 70% Black Male, 5% Black Female, 20% White Male, and 5% White Female representation.

OUR COMMITMENT

We are dedicated to continuous skills development, training, and career growth, ensuring that our teams remain highly competent, motivated, and aligned with industry best practices.

Through inclusive growth and investment in our people, we build a strong, capable workforce that drives sustainable success and operational excellence.

OUR LEADERSHIP

With 17 years of experience across drilling, blasting, mining, civil works, solar projects, engineering and safety, Chester combines innovation, empathy and social responsibility to lead DPR with integrity and purpose.

His people-focused approach ensures that the needs of employees, customers, and stakeholders are understood and addressed, while his visionary leadership, strategic thinking, and strong communication skills inspire and motivate others to work towards shared goals.

CHESTER COETZEE

CHIEF EXECUTIVE OFFICER

With over 25 years of experience across all operations, our Managing Director brings extensive operational knowledge, hands-on expertise, and a deep passion for delivering exceptional services.

Driven by a readiness for new challenges, he takes a practical and innovative approach to improving performance and project outcomes while building strong, lasting client relationships.

Known for his calm leadership, practical decision-making, and commitment to excellence, safety, and client satisfaction, he plays a vital role in driving the company's continued growth and success.

JAN VAN DEVENTER

MANAGING DIRECTOR

OUR CAPABILITIES

DPR is a South African specialist contractor providing comprehensive services to the renewable energy, mining and civil construction industries. Our experienced maintenance team provides on-site servicing and repairs, ensuring maximum equipment availability and minimal downtime. We also design and manufacture specialised drilling tools and attachments to improve productivity, enhance efficiency and keep projects running smoothly. By combining drilling expertise with transport, maintenance, equipment support, and in-house manufacturing, DPR offers clients a single, reliable partner capable of delivering complete project solutions from mobilisation through to successful completion.

RENEWABLE ENERGY

- Solar Pile Drilling
- Solar Pile Ramming / Pile Driving
- Rock Drilling and Pre-Drilling
- GPS Setting Out and Survey Support
- Installation of Steel Mounting Structures
- Installation Of Solar PV Panels
- Civil Works Associated with Solar Pv Projects

MINING SERVICES

- Load and Haul
- Overburden Drilling
- Coal Drilling
- Exploration Drilling
- Blasting

MINING & CONSTRUCTION EQUIPMENT

- Diesel Generator Rental
- Dewatering Pump Rental (2" to 12")
- Excavators and Support Equipment
- Plant Hire with Experienced Operators

SUBCONTRACTING

- Complete Drilling Packages
- Labour-Only Contracts
- Complete Pile Ramming Packages
- Plant and Operator Contracts
- Steel Mounting Structures Installation
- Turnkey Mechanical Installation Packages
- Solar PV Panel Installation
- Generator Rental
- Blast Hole Drilling for Mining Operations
- Dewatering Pump Rental

MINING DRILLING BLASTING

1. PRODUCTION DRILLING

High-volume drilling for production targets with maximum efficiency and accuracy.

2. HARD ROCK DRILLING

Specialist drilling in hard rock formations using advanced equipment and techniques.

3. CHALLENGING GROUND CONDITIONS

Proven capability in difficult and unpredictable ground conditions.

4. LOAD AND HAUL

Efficient load and haul services to support productive and smooth mining operations.

5. ROAD DESIGN AND MAINTENANCE

Design and maintenance of mine roads for safe, reliable and efficient access across site.

6. DEWATERING

Effective dewatering solutions to manage water and keep operations running smoothly.

7. OVERBURDEN BLASTING

Safe and controlled overburden blasting to remove waste and expose ore.

8. COAL BLASTING

Specialised coal blasting to ensure optimal fragmentation and operational efficiency.

9. SECONDARY BLASTING

Secondary blasting to break down oversize material and improve material flow.

We are committed to delivering safe, efficient and cost-effective mining and drilling solutions.

Our focus is on building long-term partnerships through trust, performance and results.

OUR MODERN EQUIPMENT

- Drill Rigs
- Mining / Construction Equipment
- Compressors
- Water Trucks
- Light Towers
- Service Vehicles

SOLAR FARM PROJECTS

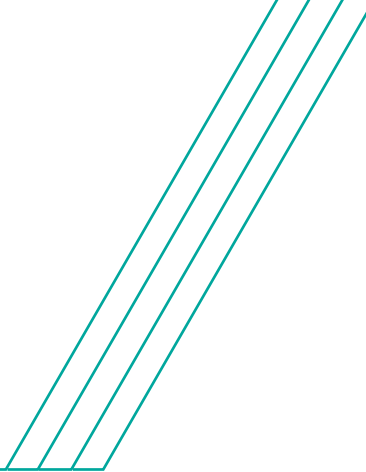

OUR SOLAR PROJECT EXPERIENCE

- De Aar Solar Project
- Boshoff Solar Project
- Virginia Solar Project
- Postmasburg Solar Project
- Uppington Solar Project
- Standerton Solar Project (currently in progress)

Our solar project services encompass the complete installation process, from initial solar project survey points and hydraulic pile ramming through to completed pile installation and mounting structure installation.

We ensure accurate structure alignment before proceeding with solar PV panel installation, resulting in a completed solar array. From individual installation stages to the broader solar farm, our expertise supports the development of efficient renewable energy infrastructure, powering a sustainable future.

1. SOLAR PROJECT SURVEY POINTS
2. HYDRAULIC PILE RAMMING
3. COMPLETED PILE INSTALLATION
4. MOUNTING STRUCTURE INSTALLATION
5. STRUCTURE ALIGNMENT
6. SOLAR PV PANEL INSTALLATION
7. COMPLETED SOLAR ARRAY
8. SOLAR FARM OVERVIEW
9. POWERING A SUSTAINABLE FUTURE

CONCRETE & **BUILDING**

DPR delivers high-quality civil construction solutions with precision, efficiency and reliability.

From site preparation to structural completion, we build with strength and integrity

BUILDING FOUNDATIONS **CREATING FUTURES**

- Site Preparation
- Reinforcement Work
- Structural Construction
- Building Envelope
- Concrete Works
- Installation Services

OUR PARTNERSHIPS

Through collaboration with trusted partners and service providers, we ensure that each project is supported by the right expertise, equipment, and resources, enabling us to deliver comprehensive solutions safely, efficiently, and on schedule.

These valued partnerships strengthen our capabilities, enhance the quality of our service, and provide our clients with the resources and support required to successfully deliver every project.

VD ROCK DRILLING & EQUIPMENT

- Manufacture of Drilling Tools and Attachments
- Support on Steel Mounting
- Structure Installation
- Supplying of Small Tools and Equipment

MBT

- On-Site Maintenance and Field Services
- On-Site Equipment and Servicing
- Mechanical and Hydraulic Repairs
- Field Support and Technical Assistance
- Minimizing Downtime and
- Maximising Productivity

MMS PLANT HIRE

- Supply of Any Construction Equipment and Transport Solutions
- Construction Equipment Hire
- 4 Ton Rollback
- 14 Ton Rollback
- 35 Ton Lowbed

MMS

- Supply Of Water Pumps & Power Solutions
- Diesel Water Pumps From 2" Up To 8"
- Generators Of Any Size

HIRE US FOR YOUR PROJECT

- * Extensive experience in both the mining and renewable energy sectors.
- * Modern fleet of drilling rigs, hydraulic pile ramming equipment, excavators, generators, and dewatering pumps.
- * Highly skilled operators, mechanics, supervisors and installation teams.
- * Rapid mobilisation anywhere in South Africa.
- * Strong commitment to safety, quality, productivity and meeting project deadlines.
